

VOLUNTEER ENGAGEMENT

Creating Opportunities to Be Each Other's Neighbors

Day of Caring Calendar

Our new calendar allows volunteers to serve their communities by meeting the most pressing needs of our agency partners. With the calendar, volunteers can:

- Search through all available volunteer projects at a glance
- Sign up a volunteer team electronically
- See a better overview of the community's needs so they understand how to make the most impact as a volunteer

Skills-Based Volunteering

Your professional expertise might be the most valuable thing that you can offer as a volunteer. During these difficult economic times, you can strengthen a nonprofit organization's infrastructure by offering services they may not be able to afford. Sign on for a pro-bono project, conduct a skills-share workshop, or offer a consultation day. Many projects can be done virtually, on your own time.

United Way Care Projects

When you can't make it out to a project, we'll bring it to you! Our Care projects offer educational and participatory experiences for your employees. We handle all aspects of the project, including ordering materials and facilitating the experience. Please note that these projects require some funding. Available projects include:

- Literacy Resource Kits (Lit Kits)
- New Mom Kits
- New Job Kits
- Hygiene Kits
- Other kit-packing opportunities as needed

Neighborhood Networks

Neighborhood Network Tours

The best way to understand United Way's work is to see it for yourself. That's why United Way will be offering periodic Neighborhood Network tours. Talk to your Relationship Manager to find out about tour availability.

United for the Holidays

Our new holiday resource fair and community celebration will feature even more opportunities to support and volunteer in a Neighborhood Network.

For more information, contact us at dayofcaring@uw-mc.org or talk to your United Way Relationship Manager.
